10x wild berry large chew toy

Our wild berry-scented Chew Toy is a super engaging toy for larger dogs. Made in the USA, its erratic bounce keeps dogs happily occupied during fetch. Dogs love to gnaw on the Chew Toy's unique knobby ends, promoting healthy teeth and gums. It's also perfect as a treat dispenser—any treat. We recommend our Hive Chew Stick Treats, uniquely designed to wedge snugly inside the cavity, creating an even more enriching experience for your dog.

The Toys's bright color makes it easy for you and your dog to find indoors and outdoors. All our toys float, so you can toss them into any lake, pool, or body of water for even more refreshing fun! Dogs' highly developed sense of smell plays a major role in their well-being, and providing dogs with scented toys fulfills a key enrichment need. The Wild Berry scent can further engage your dog during play or cuddle time.

Did you know? Wild Berry flowers depend on a variety of wild pollinators to enhance fruit production, including wasps, flies, and bees. All aromas in the our coorful Scent Collection are inspired by plants that feed and need bees for pollination. Try them all—which one will be your dog's favorite?
Interactive Tip: Insert Hive Chew Stick Treats for large dogs at either end of the Chew Toy for extended play.
